Friday 20<sup>th</sup> July 2018

Dear Parents and Carers,

The children have been doing really well but I think they know that summer holidays are just round the corner!

There have been some super half-term homework projects brought in by Y4 and 5 this week based upon their topics of habitats and Brazil and the photos are just a selection – shoeboxes offer a great possibility!

On Wednesday this week **Y6** performed their end of year play. This year it was a review of William Shakespeare's life and it was fantastic. I had tried to avoid hearing and watching the practice and I'm really pleased I did. The chorus singing was great, the soloists were super (and very brave!) and the three rappers did a great turn. A year three child said to me after they'd watched it that it was great and they wished they could see a Y6 play everyday! Well done to Mrs Robinson and Mrs Rivenberg for putting it on.

Whilst finishing off things we very much have an eye also on September. **We return on Monday 3<sup>rd</sup>** as the Y6 go on their residential in that week. We have been able to move it back a week for the following year which means that in 2019 – 20 we will start and end on the same day as Braunton Academy.

Also on **Monday 3<sup>rd</sup> September The Tour of Britain** passes right by our school along Caen Street. This is exciting but could also lead to some disruption for driving and parking. They expect to close the road about fifteen minutes before the cyclists come through and they expect that time to be 2.55pm and they estimate that they will zip past the school at about 3.10pm. We will take the children out to watch but you will be welcome to collect your child between 2.30 – 2.45pm should you wish to to (hopefully) avoid traffic issues. Times and details can be found on this link: <http://www.tourofbritain.co.uk/stages/stage-two/>

Have a good weekend,

Mr Page

## ECO BRICKS

**Mr Edwards** is wanting to make some seating and sculptures out of eco bricks and **he needs your help**. Over the summer if you can make him an eco brick – a plastic bottle stuffed as tightly as you can with plastic packaging, wrappers, bags etc then he can use these for building. Please bring them in when we return in September.

## Books

Please check your book shelves and child's room at home for class and school library books and return any asap.

## Upcoming events

24.7 – Y6 Leavers assembly. 9.15am St. Brannocks rooms.

25.7 – End of term
